

2014 Take Your Legislator to Work Campaign

The Idaho Employment First Consortium is excited to invite you to participate in “Take Your Legislator to Work” campaign in Idaho. We are seeking individuals and organizations to help us promote the hiring of individuals with disabilities.

“Take Your Legislator to Work” is an event in which individuals with disabilities who are employed in the community invite a legislator to their workplace. The goal is to build awareness about the capabilities of people with disabilities and the valuable resource they are to their employers and community.

If you choose to participate, the first step is to get the support of your employer to have a legislative visit. You will need to identify legislators in your area to invite to the event. The invitation should be sent by you to your legislator. The intent is to have these visits occur during October as part of National Employment Disability Awareness month and to be covered by the media – newspapers, television, etc.

The Idaho Employment First Consortium has developed a tool kit to help you get ready for this event. It includes tips on how to talk with your employer, invite your legislator, and get the media to cover the event.

The Consortium is committed to this event and hopes you will join us in celebrating the success of employees with disabilities and the employment potential of all individuals with disabilities.

Respectfully,

The Idaho Employment First Consortium
